THE *Daily Messenger* says that the TRANSCRIPT "starts off with every sail set that will draw." Yes; We "draw" seventy-five subscribers yesterday.

THE gentlemanly editor of the Rutland *Herold* records a visit to some Cashmere goats, owned by a resident of Rutland, and says that they, the goats of course, "will repay a visit." In person?

CIRCUS.—Murray & Stone's Circus is coming to Vermont. Children, get your half shickels ready.

MR. GEORGE W. BOGUE, formerly of St. Albans, now a resident of Jacksonville, Florida, has been elected a member of the Florida Legislature by eight hundred majority. Mr. Bogue will accept our thanks for copies of the Constitution and Journal of the proceedings of the Constitutional Convention of the State of Florida.

BURGLARY.—Our look-out informs us that the cellar of Messrs. Breck & Wetherbee's store was entered by burglars Thursday night, and a rigorous attempt made to force the door leading from the cellar into the store, but for some reason the attempt was finally abandoned.

LARGE quantities of potatoes are being daily shipped from St. Albans and vicinity to Massachusetts, where, it would seem, there is a scarcity of the article. About a thousand bushels were shipped yesterday and to-day.

SPORT.—The departure of ice from our lakes and streams uncovers the home of the fishes, and numerous gentlemen are casting their lines in pleasant places, as we are informed. Messrs. Henry G. Edson and Daniel Drew caught eight bass on Thursday, which averaged 3½ pounds in weight. They were caught off St. Albans point, in about fifteen minutes' fishing. Messrs. A. H. Munyan, S. P. Gates and Hiram B. Sowles, also tried their luck, and were rewarded with seven bass, the heaviest weighing four pounds.

THE NEW GAS HOUSE.—Ground has been broken for the foundation of the new gas works, east of the railroad, and the work will go steadily on to their completion, doubtless. The walls of the main building will be of brick, and the style after the modern pattern of coal gas works. The dimensions will be equal, it is intended, for the supply of all the present needs of our town, with a good margin for our sure growth in the future.

FULTON MARKET.—Notice will be taken of the new advertisement of Fulton Market, in another column. Mr. E. C. Gallar, the enterprising proprietor, as most people know, has fitted this market up in a style that would not discredit the cities, and everything in his line may be found in season in his neat and tasty rooms. For information concerning the "list of contents" of the market, see the advertisement, or the Market itself.

BOOK STORE.—Those who are in want of the latest books, and of note paper, envelopes, and most things in the book trade business, should refer to Mr. Baker's advertisement. He has opened a fine store on Lake street, and will undoubtedly receive a generous share of the patronage of our place.

"THE DOG NUISANCE."—Mr. Henry C. Green lost two blooded sheep, killed by dogs, on Thursday, and two more were severely injured. Those four sheep, if sold at their actual value, would probably pay for nine-tenths of the dogs in town, at their actual value.

WELDEN SPRING.—The proprietors of this excellent Mineral Spring are preparing in earnest for the summer campaign. They are now building a bottling house over the spring, situated, as most of our readers know, in the western portion of the village, and the dimensions seem to be calculated for a good business. The house will be 20 by 36 feet, and will contain every facility for the bottling of water. A pump and corking apparatus have been added, as have also a large number of bottles. The Welden spring is the only one in Vermont known to contain iodine, we are informed, and its waters have been very successfully used in the cure of chronic rheumatism, scrofula, disease of the kidneys, dyspepsia, etc.

Mrs. Jewell, a resident of this county, who had been afflicted with rheumatism for eleven years, has had the use of her limbs restored by the use of this spring water internally and externally. Several cases of scrofula, extending to a partial loss of sight, have been cured. Indeed the water of this spring has steadily gained in the public appreciation and favor, and will, doubtless be sanctioned by the afflicted as it has by the celebrated chemist, Dr. Hayes, with the title of "a truly remarkable water."

It will be remembered by our village readers that at the annual school meeting of District No. 3, held the last of March, a resolution was adopted directing the Prudential Committee to accept the free use of two rooms in the basement of the Catholic church for school purposes, which had been offered by Rev. Z. Druon, to provide teachers for them, and pay the current expenses for the year ensuing. The rooms have been properly fitted up, and the school is in successful operation. Mr. Ferdinand Dube, who has been a successful teacher for eight years in New York, Baltimore and Montreal, has charge of the large boys and Miss Perry of the large girls. They are assisted by Miss Clavel, who has charge of the small boys and girls. The present number of scholars is two hundred and forty, and we are told that if the accommodations were greater the number would be increased to at least three hundred. The school has been visited by several of our citizens who speak of its management in praiseworthy terms.

GROWTH.—When the new steam ferry between St. Albans and Plattsburgh gets into operation, we expect our business men will begin to see that a better road from this place to St. Albans Bay will be a necessity—we mean a good road at all times of the year, for wheeling purposes. The ferry will be a matter of business importance both to the Bay and to this place; will tend to increase the value of real estate at least at the Bay; and will unite in no small degree the interests of both places. St. Albans is growing rapidly each year, as is conclusively shown by the exact doubling of its population in the five years from 1860 to 1865, and a corresponding increase since; and it begins to be a matter of individual inquiry as to which way to extend. Common sense and gravitation indicate that the greatest extension must be towards the lake, and if business adds its obligations, as we doubt not it will, we shall see that the "Reserve" will have been reserved to some purpose, and that its principal street will need to be made excellent for a highway for the business of the town.

State Items.

A NEW steamer "Lady of the Lake," a beautiful and staunch vessel has been placed on Lake Memphremagog. Her hull is built of iron, and was originally put together at Glasgow Scotland. Her length is 164 feet, width 45 feet. She has two boilers, and a powerful beam engine, built at Montreal, has watertight compartments, and is handsomely furnished throughout. She will make, we understand, two round trips each day through the lake.

A TELEGRAPH line from Chelsea to Royallton is being constructed. It is expected to be completed next month.

THE Congregational Society of Thetford, have purchased a fine parsonage, on which they are engaged in making repairs.

HARVEY GIBBS, Esq., is appointed Post Master at Thetford, in place of Joseph P. Marsh, Esq., resigned.

A PROCLAMATION.

WHEREAS, the St. Albans Bank, a corporation, duly incorporated by the Legislature of the State of Vermont, located and doing business at St. Albans, in the county of Franklin, has made application to me, requesting me to issue a proclamation designating some day for the termination of the existence of said corporation;

And whereas, it has been made to appear to me that two-thirds of the legal votes of the stockholders of said corporation were given in favor of said application;

Now, therefore, I, Paul Dillingham, Governor of the State of Vermont, in conformity with said application, and the provisions of section eighth, six and eighty-seven of chapter eighty-nine of the General Statutes of Vermont, do hereby issue my proclamation, and declare that on the twenty-fifth day of March, A. D. 1868, the said corporation shall cease to exist as fully and with the same effect as if said charter expired by the limitation thereof.

In witness whereof, I have hereunto signed my name and caused the seal of the State of Vermont to be hereunto affixed, in Executive Chambers at Waterbury, this 23rd day of September, A. D. 1867, and of the independence of the United States the 91st.

IMPORTANT TO STOCK GROWERS.

Blood, Beauty, Speed, Kindness and Endurance.

Those who desire to raise first-class stock, and all lovers of good horses, are respectfully informed that the Hambletonian trotting stallion, YOUNG DEXTER:

will stand for a limited number of mares the ensuing season, at the Homestead Stock Farm, Greenwich, Washington County, N. Y.; season to commence on the 1st of May and to end on the 1st of September. Young Dexter was bred at Chester, Orange County, N. Y., is four years old, by Rysdyk's Hambletonian, stands nearly 16 hands high, and is one of the best of the get of his celebrated sire, Young Dexter is a half brother to Dexter, George Wilkes, Bruno, Brunette, allied to Mountain Boy—and other well known horses. Very evidently, from his shape, shape, etc., Young Dexter will not only bring cheap, fine and speedy stock, but also handsome carriage and family horses as well. It is manifestly for the benefit of stock growers that they obtain not only the best and most popular blood in the country, but also that which commands the highest prices in market, and it requires no more labor or care to raise a good colt than an inferior one. It was with the view to improve the stock of horses in Northern New York, that Young Dexter was imported from England, and that Young Dexter was purchased by its present owner, Mr. H. C. Page, Editor of the *People's Journal*—the object being to benefit farmers and stock growers by enabling them to produce the same quality of stock at less expense. For further particulars, terms, etc., address Homestead Stock Farm, Greenwich, Washington County, N. Y. E. G. STRATTON, 215-ly Superintendent. d3-4f

LATEST NEWS!

FROM WASHINGTON.

The Impeachment Trial !

Vote to be Taken To-morrow.

THE SICK SENATORS !!

IMPEACHMENT REPORTED

"GON UP."

NEW YORK, May 13.

The *Tribune's* special Washington despatch says:Besides those already summoned before the impeachment managers Evarts, Worden, Trumbull's son, and a western newspaper correspondent, and several of those known to have made bets upon how the different Senators are going to vote, will be summoned, and be required to make known the ground upon which, weeks before the trial, they hazarded thousands of dollars. It is probable that important developments will be made. No committee work is being transacted as impeachment absorbs all other business. A vote will certainly be taken on Saturday if the indisposed Senators can be secured in attendance. Whether the trial be ended on Saturday or not both houses will adjourn over until after the Chicago convention. The *Times'* despatch says the result of all the interviews with Henderson shows that he will certainly vote for acquittal on all the articles—Mr. Vanwinkle will do the same. Mr. Fowier is doubtful. This gives the President only 18 votes—12 Democrats and 5 Republicans. He must have 19 and the additional man must come from the Republicans. That man must be Anthony Frelinghuysen, Sprague, or Welby. It is perfectly certain that the two first cannot be touched. The President cannot get Sprague, for he has tried it through the Chief Justice who is father-in-law of the Senator, and the latter announced that his mind was settled and could not be changed; if Willey votes for the second article the President will be convicted by a vote of 36 to 18. The *World's* despatch says the 19 Senators expected to vote against all the articles of impeachment are, Democrats, Boyard, Luckalew, Davis, Dixon, Doolittle, Hendricks, Johnson, McCurry, Norton, Patterson, of Tenn., Saulsbury, Vickers, Republicans, Fessenden, Fowler, Grimes, Henderson, Trumbull, Vanwinkle and Willey.The *San's* despatch says: Mr. Grimes is much worse, and now lies helpless.

There is no probability at present of his being able to reach the Senate Saturday, if he continues to fail as rapidly as he has, he will never leave his room. He is not able to raise his right arm, and his legs are becoming benumbed. A motion to again postpone the vote is being discussed, but it is not likely to be carried.
